

## U.S. Staff Chiefs Meet Canadian Officers

DEFENCE PREPARATION is object of high ranking U.S. military experts on tour of northern defence installations. Left to right are Vice Admiral Arthur D. Struble, U.S. deputy chief of naval operations; Gen. J. Laughton Collins, chief of staff, U.S. army; Air Com-

modore H. M. Carscallan, chief of staff, North West Air Command; Gen. Hoyt S. Vandenberg, U.S. air force; Col. E. C. "Tex" Brown, chief of staff, Western Command (army); Gen. Omar N. Bradley, U.S. chair-

## Alberta Oil Fields Rate Top Strategic Importance

### JUST TWO WEEKS

### University Offers Novel Opportunity

University starts in just two and one-half weeks, and some 4,000 students will be looking for new typewriters, calculators, and numerous other studying and living facilities. One of the first places in which they'll be looking will be Bulletin want ads, because they know Bulletin want ads get results. If you have anything for sale that a student might be interested in, why not advertise it in Bulletin want ads? It's an easy way to dispose of surplus goods and get a few extra dollars at the same time. Just phone 42111.

## Federal OK Is Sought For Duck Open Season

Alberta game branch authorities are today waiting permission from Ottawa to open pre-season warfare on destructive ducks in the Brooks district of southern Alberta. More than 100,000 mallards and pin-tails are reported to be devouring swathed and stocked grain in a 130,000-acre area of the Eastern Irrigation District. At Edmonton, game branch officials have wired federal authorities for a general permit to allow immediate duck hunting. Hunting season is scheduled to open in the district Sept. 24, one week after duck hunting is permitted in Northern Alberta.

## 2 New Cases Of Polio Here

Two new polio cases, a 25-year-old man from the west end, and a 15-year-old boy from the east end, today boosted the city's 1940 total to 11. Both were mild cases with no paralysis, the same as all others reported in Edmonton this year. "We have had fewer cases of poliomyelitis this summer than has been expected," says Dr. G. M. Little, city medical health officer. "As the polio season draws to a close, there is a moderate increase in number of cases reported. Fortunately, cases this year have been mild in character and are not likely to become extensive in number before the usual season for this disease is over."

## Surveyors Lost In North Lake

WINNIPEG, Sept. 7. — (CP) — Searchers are continuing dragging operations on a small northern Manitoba lake today for two missing field men whose motor equipment and canoe was found overturned Friday. Missing are Louis Dubois, 17, of Pin. Fam. Man., and Harold Mont, 25-year-old Ottawa survivor. They were reported missing from their camp last Friday, some 80 miles northwest of the new Lyna Lake mining area.

Oil fields in the Edmonton area are among the most strategic in the world from the standpoint of North American defence.

This view was expressed here today by 19 top-ranking U.S. Chiefs of Staff during a stopover on an inspection flight to Alaska.

The party included Gen. Omar N. Bradley, chief of staff of the United States army and chairman of the high ranking group; Gen. Hoyt S. Vandenberg, commanding general of the U.S. Air Force; Gen. J. Laughton Collins, deputy chief of staff, U.S. army; Gen. E. D. Reynolds, air force; Lt. Col. T. McHugh, air force, and Lt. Col. C. D. Johnson, of the United States army.

Keen interest in Edmonton's sprawling oil fields was expressed by several members of the American military party.

## Boy Is 13th Killer Victim

CAMDEN, N.J., Sept. 7. — (AP) — A 12-year-old boy died today—the 13th person slaughtered by ruthless fanatic Howard Urruh in his rampage against storekeepers whom he considered "money-changers." He wounded three others.

Young John Wilson died in Cooper hospital 15 hours after Urruh deliberately shot 16 men, women and children in a 20-minute shooting spree that turned a quiet residential section into a scene of blood and terror.

The three remaining injured—a woman and two boys—were still in the hospital but their condition was not critical.

The Wilson boy, his mother and grandmother were shot while they sat in an automobile waiting for a traffic light. The two women were killed instantly with single shots.

Urruh told police his resentment against the neighborhood storekeepers—the drugists, the shoemaker, the barber and the tailor—drove him to the killings.

"The neighbors had been talking about me for some time and making derogatory remarks about my character," Urruh told police. "I had been thinking about killing them for some time."

Police said neighbors told them the 27-year-old Urruh "hated everybody, especially storekeepers whom he referred to as money changers."

Urruh, who turned a Camden street into a scene of carnage yesterday with 36 minutes of deliberate murder with a 38 calibre German Luger, will not be arraigned at least until late next week.

## 22 Forest Fires

TORONTO, Sept. 7. — (CP) — Twenty-two forest fires are burning in Ontario, forest department officials said today.

## POOR WISH TO EXPRESS BEFORE CAD I

BERKELEY, Cal., Sept. 7. — (UP) — Two men who demanded to be sent to jail got their wish today.

Walter D. Hahn, 28, angrily insisted on a jail term after Judge Oliver Youngs refused to release him from probation for another offense as he could go deeper hunting.

Sidney K. Ray, 48, charged with drunkenness, asked for and got a 3-day term to sober him up.

## Warm, Breezy Is Forecast

Suez, Yukon, reputed to be coldest spot in the world, yesterday was warmer than Edmonton, Lethbridge and Calgary.

The northern outpost, which a few years ago set world record for cold temperatures, yesterday recorded a high of 73.

Edmonton temperature only hit 71 while Calgary could only manage a feeble 63.

Frost hit in some low lying valleys with Whitecourt reporting one degree of frost and Prince Albert registering 32.

Weather forecast for the city today is warm and clear with south winds at 15 m.p.h. High will be 75. Cross-Canada temperatures vary today.

## Biggest Landplane In Second Test

FILTON BRISTOL, England, Sept. 7. — (Reuters) — The 130-ton Bradman, largest non-military landplane in the world, made its second test flight today. It took the air for 20 minutes before making a perfect landing. During the flight it was up for 27 minutes on its maiden flight.

## SHE WANTED A REST

TOPEKA, Kans., Sept. 7. — (UP) — The right of a woman to take a rest was upheld by a federal judge today in a lawsuit filed in a railroad station was recognized by Topeka police today as they closed their books on a "disappearance" case.

# Commission of Report Fight at Fire Probe

## 3 Power Economic Talks Begin

Top Officials Of 3 Nations Seek Solution

WASHINGTON, Sept. 7. — (AP) — Britain, Canada and the United States, began momentous talks today on the financial crisis which threatens Britain.

Foreign Minister Bevin of Britain said the United States, Britain and Canada must "harmonize all our political, our financial and economic action."

That is necessary, he said, to "correct the fundamental imbalance of the world." He called Britain's difficulties "the inevitable outcome of two world wars."

FRIENDLY ATMOSPHERE Treasury Secretary Louis Snyder of the United States has now recovered 394 fake \$10 bills in the greater Vancouver area, as intensive investigation continues in the suspected Dominion-wide attempt to flood the country with counterfeit banknotes.

Two suspected members of the counterfeit ring were charged here today. Lloyd Presley, 28, was charged with possession of and circulating counterfeit money. Eugene Lewis, 30, is charged with possession.

A lackluster recovery of play bills was reported, but RCMP officers have now recovered 394 fake \$10 bills in the greater Vancouver area, as intensive investigation continues in the suspected Dominion-wide attempt to flood the country with counterfeit banknotes.

## Portion Is Admitted By Presiding Judge

A darkening cloud in the form of a mysterious report hangs over the tribunal investigating last spring's \$3,000,000 fire at the Northern Hardware building.

The report, reported to expose weaknesses in Edmonton's fire fighting facilities and methods, was made by two experts of the Western Canada Insurance Underwriters Association.

Admission of the report as evidence has been sought for two days by Bruce Smith, K.C. counsel for Northern Hardware Co.

Fighting admission of the 40-page report are Ronald Martland counsel for Fire Chief James R. Macgregor and T. E. Gardie, representing the city of Edmonton.

SECOND ATTEMPT Sidelined yesterday in his efforts to have the mysterious report admitted, Mr. Smith took another try at it today.

He was more successful. Despite objections of Mr. Martland, Mr. Justice G. B. O'Connor, presiding judge, gave the way for admission by asking that those portions of the report not objected to be marked.

The justice reserved judgment of the portions objected to for consideration.

Mr. Martland and Mr. Gardie both expressed their surprise that Mr. Smith's stand that Edmonton's fire fighting facilities "are not sufficient" and that there are weaknesses in the system.

"There will be other fires in Edmonton," he said.

## New Bridges Recommended For Edmonton

Two new city bridges, one in the east end and the other in the west end, will be needed if recommendations of the two town planning consultants are carried out to the fullest extent.

This is Mayor Harry D. Ainslie's comment on yesterday's meeting between town planning consultants and the city council.

The meeting gave the consultants an opportunity to outline to city officials their investigation and recommendations, and to discuss physical aspects of the city, and Prof. Spence-Sale's administrative aspects of town planning.

No report of possible recommendations was made, the mayor said. Possible revision of the master street plan was forecast by Prof. Spence-Sale. He said that the city's trucking traffic from the heart of the city to marginal roads follows old routes as much as possible.

TRUCK DIVERSION Trucks going to packing plants from the south should be diverted from crossing the city's congested areas with 40 already heavily travelled streets. This would be to the advantage as well as to the city's general good, Mayor Ainslie said.

This will mean consideration of more bridges.

The professors did not want to be specific in their recommendations until their final report is presented Friday, the mayor said.

But they did commend the city's use of the transportation system in control and servicing of new areas of population. "We have been doing this for about 40 years," according to Mayor Ainslie.

## PIGEON GOT THERE BUT A WEE BIT LATE

BERLIN, Sept. 7. — (Reuters) — A breeder of carrier pigeons, clean-shaven and in a Soviet zone, was surprised to discover a newly-arrived and plainly-exhausted pigeon among his own brood.

A message removed from under the pigeon's wing was a desperate call for help from an isolated German infantry battalion in southern Italy which reported itself "cut off by the enemy and near to starvation."

Where the pigeon spent the years between 1943, when the message was despatched and the date it arrived, remains a mystery.

## Writer Dies

PARIS, Sept. 7. — (AP) — Lucien Descaves, 58, known as one of the founders of the French school of "realistic" writers, died yesterday. Descaves was president of the Goncourt Academy, a society of leading French literary figures.

## \$43 Million Nash Estate Hit Hard

LOS ANGELES, Sept. 7. — (AP) — Executors for the estate of Charles W. Nash, pioneer auto manufacturer, estimate his \$43,150,634 estate will be reduced about 75 per cent by taxes and other levies. Inheritance taxes alone total \$23,300,569. Nash died last year at the age of 84.

BATTERED WRECKAGE of old model car was towed into Stony Plain Road garage yesterday following accident four miles west of Edmonton city limits. Police here claim they have no report of accident, but hospital report is injured persons taken in from scene. Garage officials said car is owned by "man named Thompson who has been over in Canada from Holland for only a couple of months."

# It Happened TODAY

## People

Even a 75-year-old gay Lohia should be left alone with his eyes a-courting even if he does happen to be the vice-president of the United States. That's the opinion of Vice-President Alben W. Barkley. Barkley ordered the hum's rush put on reporters and photographers "shadowing" him by his old friend, the attractive Mrs. Caroline S. Hilday of St. Louis. This is my private life, I don't want it interfered with, said Barkley.

find out things is to see how the other fellow does it. So British and Canadian newspapering scientists, Dr. H. M. Barrett, Toronto, chief superintendent of Canadian defence research board station at Suffield, Alta., goes to the British chemical defence station at Porton, Wiltshire, England for two years. Dr. E. A. Parson will come from Porton to take over job as chief superintendent at Suffield.

Hydro engineers of Manitoba and Ontario will study ways of making the Winnipeg River give up its last drop of potential power for the good of both provinces. A play for maximum conservation of river water will be studied at a joint conference Premier D. L. Campbell of Manitoba has announced.

## World Affairs

Canada wants that failure of present Washington financial talks on the dollar crisis will give heart to Russian imperialism. Canadian delegates to the conference will urge Britain to accept plan for multilateral trade agreements and abandonment of her plan for bilateral agreements in sterling areas.

ALBEN W. BARKLEY

...Bums rush.

Echoes of one of history's greatest art frauds are now heard around Toronto's Liberty Oudandse, 35, only pupil of Dutch painter Hans Van Meer, has arrived in Canada from Holland. The late Van Meer's other great master was Vermeer and other great masters so cleverly he fooled all the critics for a while and then went to jail. He died in 1947. Pupil Oudandse says he too can imitate but doesn't think he will because "there are jails in Canada, too."

## Crime

If two Chicago hoodlums try to shoot their way out of the court room where they are being tried for murder, they're likely to be on the receiving end of most of the shooting. Police are noosed thwarting of a plot by Richard Timborski and Joseph Jakubski, held for slaying two bank guards. Accused promised \$500 to a guard who would smuggle a gun to them during the trial.

## Manners & Morals

It was a big build-up to an awful let-down for a 15-man rescue party at Vancouver. Rescue group set out to find two women and man "lost" on a mountain near the coast. City. Dead is Roderick Kerr. In hospital is Donald Kerr, suffering from a fractured skull and other injuries.

Soldiers at military school at Chilliwack have been losing blood at an "alarming" rate. One of the main causes of the vital fluid has been poured into Bent Cross blood bank bank to set a new record.

## Science

Scientists know the way to

## Freak Mishap Kids Boy, 6

KENORA, Ont., Sept. 7.—(CP)—A six-year-old boy is dead and his 10-year-old brother is in serious condition in hospital following an unusual accident yesterday on the highway near here. Dead is Roderick Kerr. In hospital is Donald Kerr, suffering from a fractured skull and other injuries.

Reports said the two boys were playing along the highway, with a 20-foot rope tied about their waists, stretching across the right of way. A car hit the rope, tossing the children aside as the rope snapped. The car did not stop, and police said they believe the driver did not know of the accident, trying to maintain their search for the vehicle.

## Toronto Seeks VD Tests For Marriage

TORONTO, Sept. 7.—(CP)—Board of control today endorsed a motion requiring a test for syphilis three days before marriage. The board passed the motion to council, which will be asked to forward it to the Ontario government.

## "OH MY FEET!"

Don't suffer from sore, swollen feet to ruin your vacation. Use the famous "Oh My Feet!" foot powder. It's the only foot powder that keeps your feet cool, dry and comfortable. It's the only foot powder that keeps your feet from getting itchy and burning. It's the only foot powder that keeps your feet from getting chapped and cracked. It's the only foot powder that keeps your feet from getting smelly. It's the only foot powder that keeps your feet from getting tired. It's the only foot powder that keeps your feet from getting hot. It's the only foot powder that keeps your feet from getting cold. It's the only foot powder that keeps your feet from getting dry. It's the only foot powder that keeps your feet from getting wet. It's the only foot powder that keeps your feet from getting dirty. It's the only foot powder that keeps your feet from getting ugly. It's the only foot powder that keeps your feet from getting old. It's the only foot powder that keeps your feet from getting young. It's the only foot powder that keeps your feet from getting beautiful. It's the only foot powder that keeps your feet from getting ugly. It's the only foot powder that keeps your feet from getting old. It's the only foot powder that keeps your feet from getting young. It's the only foot powder that keeps your feet from getting beautiful.

# Britain Second To None in Jets

## Giant Air Show Unwraps New Planes for Observers

FARNBOROUGH, Hampshire, England, Sept. 7.—(CP)—Britain yesterday unveiled some of her top-secret jet fighters to show her supremacy in the development of supersonic aircraft.

## Report Admission Fought At Probe

(Continued from Page 1)

monstrous, Mr. Smith said in his argument for the report, "and it is the utmost importance that we have the best available equipment and a trained force of men."

Mr. Smith concluded, "This report is highly pertinent to this investigation."

Mr. Marland objected that "this tribunal has been authorized to investigate only this one fire, Mr. Smith," he said, "wants to submit evidence of the very matters your lordship must determine."

Mr. Smith argued that "because the insurance experts state opinion is no objection at all. We already have one expert here from New York (former New York City Chief Harold Burns) and now we have available the opinions of three experts."

Mr. Justice O'Connor thought that if Mr. Marland and Mr. Garbutt did not see fit to reconsider objections, "it will be necessary to have these experts come here" from Winnipeg.

The matter has been set aside until Neil D. Maclean, commission counsel, marks those portions of the report not in dispute.

Two witnesses took the stand today as the fire probe continued.

Walter J. Brown, a tenant of the Northern Hardware building, told that if Mr. Marland and Mr. Garbutt did not see fit to reconsider objections, "it will be necessary to have these experts come here" from Winnipeg.

## Alberta Oil Said Strategic

(Continued from Page 1)

ing ones, Gen. H. S. Vandenberg USAF, sought information of new developments.

He expressed pleasure but not surprise on being told the fields had spread to such fields as Hanna, Joseph's Lake, Golden Spike, Whitecourt and other producing areas.

## MOST STRATEGIC

"For North American defence, the Edmonton discovery is perhaps the most strategic to be made," said Gen. Vandenberg.

"Your development indicates that the potential is large. Continental defence hinges on oil supply, and an important factor is knowing the fields all the way to the coast where they can be defended."

"These fields in this area seem ideally located from a defence viewpoint," he said.

Water experts here and joint defence was topic of technical discussion between the general and Wing Commander Hodgson.

"Should an emergency arise, the present American military forces are prepared for a quick change-over and will form a sound nucleus for national mobilization, they pointed out.

## ATLANTIC FACT

Questioned on his view on the Atlantic pact, Admiral Struble said, "It is a little early yet to say much. No doubt it is a great step in the right direction."

General Bradley indicated that a pact without a complete and binding agreement which would act mutually on all signatories, any one of which might be endangered by an aggressor, would be useless.

## FACT INFINITE

At present the pact provides for the supplying of arms to member nations by the United States but as yet does not obligate American military might to throw its weight in with any member nation which might become embroiled in active war.

Asked to name or estimate a time when U.S. Congress would approve an all-binding military agreement, the general replied, "It is rather hard to predict."

He declared that information gathered in the present inspection of far northern defences would be used in U.S. deliberations regarding military unification of pact nations.

"That is what we are trying to organize," said Gen. Bradley.

## BACK FROM EUROPE

In Europe last month, the group made a similar tour of inspection with particular emphasis on installations bordering the United States sector of Germany where it meets Soviet-occupied territory.

## Lakehead Grain Elevators Choked

FORT WILLIAM, Sept. 7.—(TRUP)—Grain elevators at Fort William were choked today as grain piled high.

The north inspection is described by United States Defence Secretary Louis Johnson in this manner.

The Alaskan trip continues the policy for the joint chief of staff to visit unaffiliated commands together as the opportunity offers, in order to study mutual defence problems.

The general made no comment on whether the inspection trip held any special significance in defence preparations due to the strained relations between the Soviet Union and Yugoslavia or of the Soviet's subverting at Finland.

## FACING U.S.

The party left after the brief stop, for Anchorage, Alaska. Their tour of defence installations ranging through Alaskan and along the Alaskan border facing the Soviet's defences in Siberia—at one point only about 30 miles apart—will be conducted by Gen. Nathan Twining, United States commanding general of the Alaska defence area.

The U.S. military party was met at the airport by Paul Sedgwick, United States consul, Col. Ted Brown, chief of staff, Western Command (army); Air Commodore H. M. Carver, chief of staff, North West Air Command; Wing-Comdr. W. H. Hodgson, officer commanding BCAF winter experiments, Maj. C. Carpenter, senior member of the USAF here, and other officers.

## Greek Island Burns

ATHENS, Sept. 7.—(AP)—A huge fire on the island of Euboea off eastern Greece has leveled more than 12,000 acres of woodland in three days and still is out of control.

To protect the financial future of his loved ones, the family man needs safeguards not unlike those of the mountaineer.

First—he must join the thrifty, self-reliant people who own Life Insurance.

Second—as a policyholder he will be linked with thousands whose combined unity and strength guarantee security for the dependents of one and all.

Third—the experienced guidance of a Life Insurance representative will direct him along the best route to his objective.

There is no substitute for Life Insurance.

## Anglican Church Plans Possible Name Change

HALIFAX, Sept. 7.—(CP)—Most Rev. Cyril F. Garbett, Anglican Archbishop of York, today appealed to the church "not merely to resist, but to advance against the two-fold attack of secularism and 'atheistic' Communism."

The second-ranking prelate of the Church of England was speaking at the opening services of the three-day general synod of Canada.

Some of the important subjects to come before the synod include a possible change in the name of the church, simplification of marriage and divorce laws and mission work, particularly in the Canadian Arctic.

Two motions will be presented bearing on the suggested change of name. One, to be presented by Rt. Rev. H. R. Rags, Bishop of Calgary,

would change the name to "The Canadian Church (The Church of England in Canada)" while the other, to be brought to the synod by J. P. Bell of Hamilton, Ont., would change the name to "The Anglican Church in Canada."

The synod of the diocese of Saskatoon will present a motion advocating that a committee of the synod be appointed to "consider the whole matter of the name of the church in Canada and to report."

Dr. R. M. Hayes M.B., Ch.B., M.R.C.P. (Ed.) is the opening of an office at 14930 Street, Plain Road for General Practice Telephone 65019

## Where Man may not Venture Alone

MEN climb mountains in the company of others and with experienced guides... linked together so that each individual is protected by the skill, strength and experience of the group.

To protect the financial future of his loved ones, the family man needs safeguards not unlike those of the mountaineer.

First—he must join the thrifty, self-reliant people who own Life Insurance.

Second—as a policyholder he will be linked with thousands whose combined unity and strength guarantee security for the dependents of one and all.

Third—the experienced guidance of a Life Insurance representative will direct him along the best route to his objective.

There is no substitute for Life Insurance.

## Saturday, September 10 EDMONTON ESKIMOS VS. WINNIPEG BLUE BOMBERS

Monday, September 12 EDMONTON ESKIMOS VS. REGINA ROUGHRIDERS

Ticket sales for the Winnipeg game Saturday and the Regina game Monday open Thursday, Sept. 8, at 9:00 a.m. at WKE's and continue through till 5:00 p.m. the evening of each game.

RESERVED SEATS: \$2.00 and \$1.50

# It's Almost Brutality

The slow grinding of departmental wheels which postponed commutation of the death sentence on Allan Clifford Newson until four days before the 16-year-old boy was to die on the gallows was an instance of official procrastination that amounts almost to brutality.

There is no doubt of the Drumheller boy's guilt. He committed a murder under atrocious circumstances and it is right that he should be locked up for the rest of his natural life for the protection of society. But there was possible justification for adding torture to either the sentence of death or the new sentence decreed by the federal cabinet.

And assuredly it was nothing but torture to force this wretched boy to die a thousand deaths in contemplation of the gallows between April and September.

Remember that this child sat in his cell and faced the hangman's rope for nearly two and a half months.

He was sentenced in June to die September 7. The related reprieve was handed out grudgingly by Ottawa on September 3, just four days before he was supposed to take the final tragic drop.

## Off to a Magnificent Start

The Labor Day football game should be a source of gratification to everyone who supported the Eskimo team and every Edmonton citizen with a pride in the accomplishments of this city.

It was heartening to see the splendid performance put up by the Edmonton youngsters in the line-up, indicating the sound sportsmanship which is the product of Edmonton school training.

It was pleasant to witness the enthusiasm of the large crowd, displaying that new zeal for Edmonton undertakings in the new spirit of a reborn city.

It was gratifying to watch the spirited action on a magnificent field from intelligently planned and comfortable grandstand seats.

## Everybody Looking for Culture

How ridiculous can democracy get?

True, it is the greatest form of government yet devised for the world. But even charges leveled at it by its critics with regard to procrastination, cumbersome and outright ridiculousness, are too true.

We in Canada, it appears, are about to witness another of these triumphs of democratic foolishness.

We (the government, and therefore the people) have authorized a royal commission to delve into the reason for an apparent lack of Canadian culture. This is as well enough, for there is a national lull in a world-wide haze. Certainly, the findings of this commission can be of great use to the nation in the realm of

The grossly and inhumanly dilatory manner in which the matter of the reprieve was handled is thrown into sharper and more disgraceful emphasis by the fact that everybody in Canada, except the boy himself, knew he would not hang.

The trial judge, the jury, the crown prosecutor and others, like humane and decent citizens, had petitioned Ottawa in his behalf.

No Canadian could believe that Canada's heart had shriveled and failed to take even the most desperate child into the courtyard of a jail in the cold gray light of dawn and hang him by the little neck until he was dead.

No one could contemplate such a thing with other than horror.

But the boy, sitting in his cell frightened and alone, had no such assurance.

Those dreadful two and a half months stretched heavily on the conscience of the Canadian people.

For the reprieve could have been issued in July as readily as it was issued in September.

This is a horrible instance of official delay for which the department can find no excuse.

It is true that the gates were somewhat small to accommodate the ingress and egress of the unexpectedly large crowds. But this shortcoming can be easily rectified and undoubtedly will be.

It is true that transportation facilities could have been improved by having a fleet of gas buses at the gates of the stadium to rapidly pick up the hordes of thousands who jammed the sidewalks and streets.

But these better conveniences will come with time and experience.

Altogether, the game and all its surroundings were a credit to Edmonton enterprise and Edmonton planning.

The football venture is off to a magnificent start.

## Letters to the Editor

City Not Friendly  
Editor, Bulletin—Now I don't see how this city can be called a friendly city. For instance, I was put in jail for 194 months for nothing so how can it be a friendly city? VISITOR, Edmonton.

St. Paul's Town  
Editor, Bulletin—To those who deplore the state of affairs existing in the city of St. Paul's Town, and increasing criminality and delinquency youth, I commend the history of St. Paul's Town.

But it will probably come. The Central Mortgage and Housing Corporation is justified in its belief that housing has had an effect on the cultural growth of the nation. But so does everything else in the human environment.

If the cultural royal commission is going to hear briefs on everything that affects Canadian culture, God help us. Vincent Massey won't live that long.

## Paul Robeson and Negro Status

All the respect and dignity which splendid and capable Negroes like Dr. George Washington Carver, Dr. B. B. Bunchie and many others have added to the status of colored folk on this continent is being sadly frittered away by the antics of Paul Robeson who has transformed himself from a great artist into a political clown.

It cannot be helped that when one looks

at a member of any race one thinks of his most famous namesake.

It used to be pleasant to see a Negro and think of him as a potential Carver. It is not so pleasant to see a Negro now and think of him as a potential Robeson.

It is thoroughly unjust, of course, but that's the way of the world. Robeson is doing his people a tremendous disservice.

## Today's Text

And proclaim liberty throughout all the land unto all the inhabitants thereof—Leviticus 25:10.

## Looking Backward

1889—60 Years Ago

## The Unseen Audience

RADIO? HUH! DON'T TALK TO ME ABOUT RADIO! WHY, WITH TELEVISION WE CAN SEE TH' PRIZES!

Radio is a great medium for the unseen audience. It allows people to hear news, music, and entertainment without leaving their homes. The unseen audience is a vast and growing one, and it is important for broadcasters to cater to their needs.

The unseen audience is a vast and growing one, and it is important for broadcasters to cater to their needs. They should provide high-quality programming that is both entertaining and informative.

Broadcasters should also be aware of the needs of the unseen audience. They should provide programming that is both entertaining and informative, and they should be aware of the needs of the unseen audience.

## By Webster Stan Ross

Shuns Canada  
Britain continues to enter new agreements for the purchase of food which mean she will buy less from Canada. But while there is some ground for complaint regarding this treatment there is one fact that may be a bit disconcerting to Canadians.

The Anglo-Argentine agreement, signed last June 27, provides for the export of Argentine foodstuffs to the value of \$100 million per year. Britain in return will export petroleum, industrial products and other goods to the value of \$100 million.

Canada, in the first half of this year, exported only \$17 million to Britain. Even if that rate is maintained it means this one deal with the Argentine amounts to considerably more than our total trade with Britain because our imports amounted to only \$18.2 million during the first 6 months of this year.

Thus, at one blow, Britain has given the Argentine more business than we have. This is a situation which is not only a matter of pride, but it is also a matter of economics. Britain has also increased the price it will pay Australia for butter and cheese. She has done the same for New Zealand.

Canada Prospects Suffer From Deal  
Each deal hurts Canada's prospects. But the point that makes one think is the actual price which is being paid for these goods. Australia will still only receive the equivalent of 40 cents per pound for butter, and 35 cents per pound for cheese. New Zealand will receive one-half cent per pound more in each case.

This price is considerably lower than our Canadian flour market. In fact it is so low that it has had to be applied in Canada. And this has been true for some time. It has been true for some time. It has been true for some time.

**JASPER'S RAGS IS DEAD**  
**RAGS IS DEAD.** The little wire-haired terrier that was pride of the town was killed by a hit-and-run driver as he ran to escape a bear. Rags was owned by the Lavery family but was friend of everybody. His name was posted in the Canadian Legion clubhouse as an honorary member. A bear took after Rags when he took an interest in her cubs. A car killed him as he ran for home.

## Old Bag For Books Now Zippered Case

By Ken Liddell  
 Provincial News Editor

WESTLOCK, Sept. 7.—At this time of year, when the kids start off to school, The Old Timer is inclined to comb through his memories.

The Old Timer can remember when it was the toughest day of his life, too, and of how the months seemed to stretch so endlessly ahead until the next holiday.

But, recalled The Old Timer, he shouldered his school bag and went forth.

## PATIENCE ONE VIRTUE THAT HE LACKED

BUFFALO, N.Y., Sept. 7.—A 21-year-old Torontoan learned yesterday that patience is a virtue.

John H. Lamont of Toronto, when asked by Judge John Knight why he twice had tried to enter the United States illegally by walking across the Michigan Central Railroad bridge at Niagara Falls, replied:

"Well, judge, I wanted to come to the States but I couldn't wait for all that government red tape."

Judge Knight sentenced him to six months in prison.

## Westlock Woman Buried At Coast

WESTLOCK, Sept. 7.—Funeral service was held in Vancouver for Mrs. Arthur Gross, 36, Westlock, who died there after an illness of several months.

Mrs. Gross resided in Westlock from 1919 to 1946, when Mr. Gross sold his billiard parlor and the family moved to the coast.

Surviving are her husband, her father and mother, one son, Art, and a daughter, Dora.

## Sexsmith School

SEXSMITH, Sept. 7.—School reopened in Sexsmith on September 16 with a full staff of teachers.

D. Dane and H. Haiduk returned to teach Mrs. O. Whitten and Mrs. E. Hamilton, both of Sexsmith, will teach grades three to five, and one and two.

## No Harm Done

STYEREN, Minn.—(UPI)—A tornado swept through the town of Styeren, Minn., on Sept. 6, but it is reported that no harm was done.

## Two Hundred Pupils Attend Killam School

KILLAM, Sept. 7.—Killam school opened Sept. 1 with an enrollment of 200 students in grades one to nine. Seven classrooms are now in operation.

The teaching staff is as follows: Principal, E. A. Brader, grades 7-8-9; Miss A. O. Stubbings, grades 1-6; Miss Dorothea Gordon, grade 5; Miss M. M. Cyp, grade 4; Miss E. M. Babin, grade 3; Miss Alice Cate, grade 2; Mrs. M. McDonald, grade 1.

# Sportsmen Secure 500 Ring-Necks

Fish, Game Clubs Join  
In Releasing Pheasants

KILLAM, Sept. 7.—Executive members of fish and game clubs of Killam, Sedgewick and Viking completed final arrangements at a meeting here for delivery of 500 Chinese ring-necked pheasants.

## FIRST BERWYN WHEAT YIELDS 25 BUSHELS

BERWYN, Sept. 7.—First load of 1948 wheat to be delivered here was hailed by the Midland and Pacific elevator August 30 by Joe Early, of Berwyn.

The grain had been combined and graded No. 2 Northern. Early's grain averaged 25 bushels per acre. J. F. Nordstrom is Midland agent here.

## 16 Churches Represented At Wabamun

SEREA, Sept. 7.—Lectured by Dr. John B. Corston highlighted the week-end camping experience for the students of the Young People's Union, Dr. Corston, who is professor of new testament and chairman of St. Andrew's College, Saskatoon, spoke on the subject "My Vocation," dividing his lecture into three topics, "Finding," "Following," and "Keeping."

Over a hundred full-time campers and visitors attended the Labor Day camp held at the Anglican campsite on Lake Wabamun. Three truckloads of young people and several cars made the trip. The group represented a total of 16 churches and five separate denominations.

Following each lecture the discussion group. Discussion Group leaders included Mrs. Brooks, Frances Taylor, Betty Castejon, Alfreda Stanfield, Stuart Harris, Roy Chubb, Dr. Walstead, and Rev. R. S. Faulk.

Other leaders included the campers and visitors attended the Labor Day camp held at the Anglican campsite on Lake Wabamun. Three truckloads of young people and several cars made the trip. The group represented a total of 16 churches and five separate denominations.

## Wedding Dance Realizes \$125

BELLS, Sept. 7.—Total of \$125 was donated Saturday night at a wedding dance held in honor of Mr. and Mrs. Walter Sabrowsky, at the Bells Farmers' Hall. The wedding people were married at Edmonton, where a reception was given for the former Victoria Wolkani of Smoky Lake. The groom is farming near Bells.

## Tractor Upsets Boy Is Killed

DISBURRY, Sept. 7.—Duane Gehers, 16, was killed when a tractor he was driving was upset on a municipal road.

It is believed the machine struck a soft shoulder on a new grade about nine miles east of Disburry. The boy was son of Mr. and Mrs. Arthur Gehers.

## New Legion Hall

MILLET, Sept. 7.—Work has commenced on the erection of the Canadian Legion hall here. The building is being made from an army but recently acquired.

## CHIPMAN BUTTER BEST

CHIPMAN, Sept. 7.—Chipman Creamery Limited won first prize with a total score of 97 points in butter-creamery solids-jane made at Alberta butter exhibits at the Canadian National Exhibition. Manager of the creamery is Henry Falge. Buttermakers are Eddie Ewasick and Harry Kusch.

## Peace Soccer Stars Win 4-3

DAWSON CREEK, Sept. 7.—Joe C. Ober, manager of the Joe Davis Advertising Agency of Havre, Montana passed through Dawson Creek recently on a road trip to the Alaska Highway.

Driving a jeep station wagon, Mr. Ober is sponsored by the White Motor, Willys dealers in Montana. Results of the test are to be published in the "Chinese Opinion" of Chinook, Montana and the "Havre Daily News".

DEVON, Sept. 7.—Club Padaga the new dance and restaurant was a success of activity when it was officially opened for business. Mr. and Mrs. Dick Lee, owners, were on hand to welcome the hundreds of people, and at many attended sports sponsored by the D.C. club to mark the day.

## Lodge Officials Visit Dawson

DAWSON CREEK, Sept. 7.—Two local lodge branches welcomed visitors recently when Mrs. Olive Webb, president of the B.C. Lodge, Grand Master of B.C. Lodge, Oddfellows arrived on official visit.

A special meeting of the B.C. Lodge was called to hear Mrs. Webb and Mr. Hallett address the lodge. Mr. Hallett addressed the lodge on a municipal road.

## Chipman Wins

CHIPMAN, Sept. 7.—Chipman shut out Telford 5-0 in an exhibition football game here Sunday. Wm. Kudryk was umpire.

# IN OUR Province

EDMONTON BULLETIN, Wednesday, Sept. 7, 1949

## Ideal Weather Speeds Dawson Area Harvest

DAWSON CREEK, Sept. 7.—Fine warm, breezy weather is hastening harvest operations in the district. Combining began last week. Cecil Lake reports harvesting in full swing and cutting is general in the Beasborough area.

First wheat of the season was delivered by J. Vopick, of Port John, B.C., to the Dawson Creek elevator here, harvested by Swathmore, the wheat, graded tough.

E. W. Braden, of Bells, B.C., delivered the first load of wheat to Alberta Pacific elevator here last week and it graded No. 1 Northern.

Mr. Braden estimated his crop at 35 bushels to the acre.

## Property Owners Seeking Rebate

WESTERLYN, Sept. 7.—August 31 was the last day for the payment of the business tax on which the 10 per cent rebate could be obtained, and, according to City Treasurer C. J. Brown, it was paid almost 100 per cent. There are only a very few small amounts outstanding on this tax.

Mr. Brown and his staff are now working overtime getting out the improvement tax notices, and these, he says, will be in the mail in the course of the next few days.

## Millet Ladies Complete Plans

MILLET, Sept. 7.—Sixteen at the Church Ladies Aid held at the home of Mrs. H. A. Fulcher. Arrangements were made for a quilting bee and for the annual church supper.

Forty guests were at the farewell party tendered Mrs. F. S. Huggins, who is leaving for Edmonton shortly. A gift was presented by the Ladies Aid.

## DP's Boo Russian

COPENHAGEN, Sept. 7.—(AP)—Refugees from Latvia, Lithuania and Estonia booed and threatened to attack a Russian official who visited a Displaced Persons camp near here yesterday. The Russian urged them to return to their homelands, now Soviet territory.

## BELLIS CUTTING 75% COMPLETE

BELLIS, Sept. 7.—Cutting crew is in full swing now. About 75% of the cutting has been completed. Grain delivered so far has been grading number two.

## Montanan In Road Test

DAWSON CREEK, Sept. 7.—Peace River Block all star football team made up of players from the Dawson Creek and Tupper Creek football teams defeated the Edmonton Oilers R. Park street 4-3 in a holiday fixture played at the Dawson Creek ball park before a large crowd.

Both goalkeepers turned in excellent performances but the goal tending of Wade in the Edmonton kept the local team from a much higher score.

Outstanding player was E. Weigel, a goalie. J. Winter netted three goals. J. Winter netted the other goal for the locals.

Peace River Block All-Stars were Richardson, Wallace and Morrison. Edmonton St. Pauls, Wade, Chalmers, O'Brien, Hamilton, Heila, Mathers, Cooper, Richardson, Weigel, and W. T. Schiele. Fisher, J. Goss, J. Winter, M. Lorens, E. Weigel, and W. T. Schiele. Fisher, J. Goss, J. Winter, M. Lorens, E. Weigel, and W. T. Schiele.

## DP's Boo Russian

COPENHAGEN, Sept. 7.—(AP)—Refugees from Latvia, Lithuania and Estonia booed and threatened to attack a Russian official who visited a Displaced Persons camp near here yesterday. The Russian urged them to return to their homelands, now Soviet territory.

CANADA NEEDS HEALTHY RAILWAYS TO SERVE HER PEOPLE

On good days and bad, for business or pleasure, some 41,000,000 passengers stepped aboard Canadian trains last year.

They travelled the fantastic total of almost four billion miles. That's over 300 miles each for every man, woman and child in Canada.

The gigantic task of carrying this multitude of commuters, vacationists, business people, requires an army of train crews, trackmen, dispatchers, locomotive engineers... and miles of coaches, dining cars, engines... and mountains of coal, forests of ties and telegraph poles... and 42,000 miles of track... altogether a capital investment of well over three billion dollars.

Every Canadian depends on railroads—not only for travel but also, as freight carriers, to bring him almost everything he eats, wears, dwells in, uses... It amounts to 12 tons a year for every citizen.

The Railways EMPLOY a lot of people too.

They paid \$544,000,000 in wages and salaries to over 190,000 Canadians last year. But that's just the beginning of what the railways mean to employment in Canada. Lumbermen, factory workers, miners, farmers—men in a hundred occupations—are busy producing things the railways buy. Last year their purchases added up to more than \$400,000,000.

### Calgary Turns to Thoughts of "T"

CALGARY—It's probably just as well that Ralph Morgan's baseballing Ekimko, despite a run-down-at-the-hills performance here last night, seem destined to knock off Calgary Purities in the Big Four semi-finals, thus turning the league wind-up into an all-Edmonton Ekka-Cube affair.

This is strictly a football town so September rolls around and the fancy of so many sports followers turns round to thoughts of the "T" formation.

Most of the yakki-yack along Centre Street and in Roadie Helmer's don't-play-if-you-can't-play smooker emporium yesterday dealt with that Ekimko-Stamper football offering in Edmonton-Montreal night.

Stamps' hard-riding coach Les Lear, it was said, felt keenly what he considered to be a below-par effort on the part of his Grey Cup champions against the Johnny-come-latelys of the Western Interprovincial Football Union.

"You thought they'd be easy," he is supposed to have needed his crew.

Then he set about to devise new and even more cruel conditioning routines for use on Stamps. Lear, as is well-known, is a nut on condition.

Everywhere there was a sort of grudging admiration for Ekka. It was recognized that Annis Stukas' gang, refusing to concede anything in advance to Keith Spait and his chesty mates, had hung reasonably tough all through the opener at Clark Stadium.

**Stamps Miss Tomlinson and Co.**

A large section of Calgary grid fan had expected Stamps to roll up a big score at expense of the capital city crew.

As one old-time local fan admitted: "There was talk of getting even for that 72-0 beating Edmonton once banished Calgary."

Then he added, perhaps significantly, "maybe Winnipeg'll be the weak sister, after all."

There then was the old Stamp follower, obviously better-equipped to read the signs than his friends, who thought that some of Stamps' shortcomings against Ekks might be a result of the recent loss to McGill "UP" of Puller, Wilmet and Tomlinson.

But no matter.

Showing of Ekks while getting bogged 20-6 was looked upon as a kind of moral victory, even down here. And that Monday crowd... estimated in some quarters to have run as high as 11,000.

Your Calgary cousin was pretty bug-eyed about such starting box-office play on the go-in.

"But will they keep coming?" he was inclined to ask.

**Pat West a Lot of Football Player**

Sportsmaster Henry Viny, a recent 19-day visitor to California ("I talked with every football man worth knowing") discussed Ekks' injured full-back, Pat West in interesting fashion.

"Those men down here have a ready explanation for why Spait, 'Woody' Strode, 'Chuck' Feneboch, Earl Edey, Riley (Rattlesnake) Matheson, and other O.S. products are up in this country."

"Generally they attribute it to the fact that despite having two... three... six more seasons of good football left, as the case may be, most of these fellows are interested in improving their business outlook or landing a coaching spot."

But not one of them can understand Pat West being in this neck of the woods.

Seems that the blond West is so much football player that it doesn't add up that he shouldn't be on the grid big apple.

"Why, that guy's worth \$10,000 a season down here yet," one prominent grid coach assured Viny.

All of which make pretty good listening for the Ekimko faithful, especially as it seems certain Feneboch is going to be a real ball player in the WFL.

A pair of standout backfielders can spark a team a long way.

TOP FAVORITE to win retrieving honors in the sporting dog trials at Alberta Beach this week-end is Crailing Dan 2nd. Above black Labrador gets instructions from owner and trainer Norman Lee.

## Cowtown Scribe Blows Top Blasting Edmonton

By Ken Metherall

CALGARY, Sept. 7.—(CP)—It says to be careful what you say about football set in the west, pardner!

And to let any true Canadian brag you believe his beloved Grey Cup champion Stampeders, is just another form of suicide.

The bone-crushing blocks and vicious tackles exchanged on western gridlons are almost tame compared with cattle combat in Western Conference centers.

There, the comments are followed almost as avidly by the fall of sport enthusiasts as the games themselves.

Stan (Edmonton Bulletin) Moberg got the latest exchange of a rising star by soundly beating Stampeders for their 14-3 loss in a pre-season exhibition game to Montreal Alouettes.

Said Moberg, Stampeders "regarded in some eastern quarters as cheese champions... began the 1949 campaign after the fashion of Dada."

That was just too much for Bob (Calgary Herald) Mannin.

"It took Edmonton a long time—10 years to be exact—to gather enough courage and financial backing to get back into the gridiron picture," retorted the usually-quiet-spoken Robert.

"For the sake of the league—four teams offer more variety than three—it's hoped the Edmonton won't chill so easily this time."

"When Edmonton last ventured into Western Conference football, it was a very bad experience indeed," Ekimko folded quickly.

And the following faded after a few details. One year was all the northern opposition could take and it is encouraging to hear that Ekks have the financial backing for three years at least.

The club will probably need it. Apparently feeling that the honor of Stampeders was not yet avenged McGill dug into the past for one of the blakest plays in the northern city's gridiron history.

"The only accomplishment—and that's hardly the word—of Ekks in their last venture into conference football came in a Calgary game when coach Bob Fritz led an exit march with about three minutes still to play."

"The Ekks blundered about a touchdown. Officials ruled the

Warm-overs from the Alberta and Western Canada Open: Whatever about his 64 of Sunday afternoon, followed by a 65 just 24 hours later, the 29 Stan Leonard clicked off on Mayfair's back nine as the curtain came down will be talked about in these parts for a long time.

It was a maverick nine-holes all round, particularly as it contained five consecutive birdies, starting at the dog-dog-7th hole. Just in case you've never seen a 29 in print, here's one "stuffed" by Stan the Stamp: 32, 34, 33, ... of put right after.

... Vern Mohs ... Hard-Luck Guy ...

Hard-luck guy of the tournament? Others who showed at Mayfair last weekend will play in a \$2,500 tournament, near here, Idaho. This star who bowed to Canadian champion Dick Chapman in the Canadian Amateur at St. John, was right with the leaders after two rounds, leaving shot 71-70.

However, right off, he ran into foul weather as he headed off the first tee on his third round. Mohs' second shot found the trees and when he went to play it he found it lodged on top of another ball. Mohs played his shot, only to find the ball underneath it. Instead of his own, which dropped down into the hole left by the other ball, after this, Mohs made a career of it, winding up with an eight on the par-4 drive.

Leonard, Ward, Ben Calk, Will McIlroy and possibly one or two others who showed at Mayfair last weekend will play in a \$2,500 tournament, near here, Idaho. ## Newcombe Puts Bums Closer to Cardinals

NEW YORK, Sept. 7.—(CP)—Brooklyn Dodgers dashed within one game of the National league-leading St. Louis Cardinals last night.

With Cards idle, Don Newcombe pitched Brooklyn to a smashing 10-6 win over Boston Braves. Newcombe gave six hits in his 20th victory.

**TORRID PACE**

In the race for the pennant Dodgers scored their 13th win in 17 starts, and it was the seventh straight loss for the fourth-place Braves. But Braves snapped Newcombe's string of scoreless innings at St. when they scored in the second round.

Jackie Robinson's single started a five-run Dodgers splurge in the bottom half of the second.

In other National league games New York Giants beat Philadelphia Phillies 4-1 after losing the first game 4-2 in 10 innings, and the Cincinnati Reds exploded for four runs in the top of the 10th to beat Pittsburgh Pirates 6-3.

**YANKS PREPARE**

"There were no games yesterday in the American league, where the battered but defiant New York Yankees are doing everything except digging ditches to repel the invasion of Boston Red Sox-Yankees are only 1/2 game ahead of the Red Sox, who open a crucial three-game series at New York tonight.

Mastering all their strength the Yankees have called up first baseman Bill Collins from Kansas City. Yankees have three dependable starters, but one of them, Ike DiMaggio, isn't here yet. Catcher Yogi Berra and Johnny Mize.

**Leafs-Lethbridge In Soccer Final**

Maple Leafs, defending Alberta junior soccer champions, travel to Lethbridge for the sudden-death 1949 final Saturday. All Leaf players are asked to attend a meeting at the USO hall tonight at 8 o'clock.

## Attlee Criticizes U.K. Conservatives

### Tories Accused Of Causing Bad Blood Between U.S., U.K.

BRIDGLINGTON, England, Sept. 7.—(AP)—Prime Minister Attlee today denounced opponents of Britain's Labor government who, he said, were trying to make "bad blood" between Britain and the United States.

In an address before the Trades Union Congress, 9,000,000-member backbone of the Labor party, Attlee pronounced Britain would do its utmost to solve the dollar shortage which threatens Britain with economic disaster.

But, he added, the problem "cannot be solved by any one government in isolation."

"There is a lot of effort being put in to try to make bad blood between Britain and the United States," he said.

#### PARTY AIMS

"There are people here who do their utmost to foment hostility in the United States in the Labor government. They seek for party aims to play on the prejudices of ill-informed sections of American opinion."

"They also seek to cause dissunity by suggesting the United States will seek to interfere with the internal policy of this country. In this they join hands with the Communists. The emphatic statement of President Truman in Philadelphia should silence them."

Truman Aug. 29 told the American Legion convention in Philadelphia the United States would fight Britain in her financial crisis and said the democratic nations would not interfere with one another's internal policies.

#### TORIES BLAMED

Attlee said that "there are in the ranks of our Conservative opponents those, I think they are a minority, who would welcome economic difficulties for this country in the hope that if things get serious they might overthrow the Labor government."

"In this they are one with the Communists, who would welcome a Tory government. The Communists will no doubt continue their policy of fomenting industrial disputes wherever they think that there is a favorable ground."

Britain is "sometimes falsely represented," Attlee said, as being a "mere supplier" for American aid.

"In dealing with the problems of the post-war world, Britain and the United States have been partners."

#### U.S. GENEROUS

"The United States has been generous in providing aid to countries and peoples which suffered the ravages of war and in helping those whose economies were thrown out of gear by their efforts in the common cause. But do not let us forget the capacity and courage."

"His gifts between the intellectual and to those of the poet and the creator. Culturally, he was of no mean attainment. But his supreme interest was always in his fellow man and it was this spirit which drove him to serve his generation in one capacity or another."

## Ian Mackenzie Buried in B.C.

VANCOUVER, Sept. 7.—(CP)—

The mournful lament of the happy burial of the late Senator Ian Mackenzie of British Columbia was held here.

On a set of happier given him by the late Senator, Pope Major Edmund Eason of the Seafarers' Guild played "Lockaber No More" as Senator Mackenzie was interred in the Abbey, Ocean View burial park.

After a career which saw him as a lawyer, legislator, parliamentarian, administrator and member of the upper house, Senator Mackenzie died Friday at Banff, Alta. He was 59.

#### 1,500 ATTEND

Eight hundred persons filled the Central Presbyterian church where the funeral service was held. Another 700 persons stood outside.

Rev. J. B. Skene, who officiated at the church service, lauded Senator Mackenzie as a man who "served his generation with outstanding capacity and courage."

"His gifts between the intellectual and to those of the poet and the creator. Culturally, he was of no mean attainment. But his supreme interest was always in his fellow man and it was this spirit which drove him to serve his generation in one capacity or another."

## MONKEY BUSINESS IS SEEN INCREASING

LONDON, Sept. 7.—(CP)—Monkey business in the air is on the rise.

British Overseas Airways Corporation is flying 10,000 apes from India to New York for research laboratory use.

BOAC says one-eighth of its "passengers" are animals. Bulls, pigs, chickens and greyhounds are among the more common classes of livestock sent by plane.

# U.S. Chemist Says Discovery Vital Manganese Recovery May Reduce Imports Needed

MONTREAL, Sept. 7. (UPI)—North America's dependence on Europe, including Russia, for manganese ore may be cut by an important new chemical discovery announced here today by a United States chemical engineer.

Richard D. Hoek, senior fellow of Mellon Institute, Pittsburgh, Pa., told the regional conference of the American Institute of Chemical Engineers here that manganese can be economically recovered from low grade ores.

**FROM ORE WASTE**  
He gave details of a new method to extract the mineral, which is an important constituent of alloy steels, from 10 to 20 per cent of ore carrying impurities.

Briefly, his method was a process involving treatment with waste acidic liquor, selective removal of sulphate and iron impurities, and isolation of the manganese in the form of the oxide.

To avoid having the manganese supplies from Europe cut by the cold war, the United States has been seeking a way to get the mineral from the waste of the steel industry.

**MUTUAL AID**  
In a nutshell the U.S. was to channel steel to Canada for manufacture of box cars which in turn would be shipped to South Africa to help speed shipments which had been delayed because of a shortage of rolling stock in the north.

The Hoek discovery was expected to make the United States and Canada, still further independent of Europe for manganese, vital in the manufacture of armaments.

**OFFERS PROMISE**  
Preliminary reports from Mayo and elsewhere also indicate that ACTH-related to Cortisone but entirely different in its make-up—offers promise against rheumatoid fever.

Some scientists point out that Cortisone and ACTH involve manipulation of the glandular system. It is known that diabetes is associated with a glandular phase malady. It is known too, they go on, that diabetes and rheumatoid arthritis and dwarfism result from related conditions.

## 15 Ship's Captain Slain In Mutiny

RUE, Sept. 7. (Reuters)—Captain Caprice, driver of the 7,500-ton steamship Empire East, was killed today in a mutiny, the owners' agent reported yesterday.

The agent, New York, said he received a radio message from the Empire East requesting that police and marine forces be sent to the ship when she docks here from Ketchikan.

LITTON, British Columbia, England (UPI)—Three strike ships in a harbor and three more in the vicinity were on hand.

## Social Welfare Cases Turn Down Help Offer

SASKATOON, Sask., Sept. 7.—The municipality was estimated to have about 200 cases of social welfare assistance in the city. It was to find them grateful and to let them know that the municipality was not a charity, but a government agency.

As the city had come here to see the situation in families, it was to find them grateful and to let them know that the municipality was not a charity, but a government agency.

RECALLING OLD TIMES with his father William Rea, KC, of 10210-100 street, is William Rea, Jr., president of New Westminster radio station CKNW. Mr. Rea was formerly a staff member of the Edmonton Bulletin and arrived in city for brief visit over holiday week-end.

## Cortisone Gets Miraculous Rheumatic Fever Results

WASHINGTON, Sept. 7. (AP)—Doctors at Mayo Clinic, Rochester, Minn., experimented on a case of rheumatic fever with a substance they called "compound E"—now known as cortisone. Results were almost miraculous.

One day after the treatment was started, some improvement was noted. In less than two days the patient was symptom-free.

Cortisone is one of the two new substances employed with dramatic promise in relieving pain and other symptoms of rheumatoid arthritis. The other substance is called ACTH.

But these two big questions remain in the patient's case, as they do in others treated by the researchers with Cortisone:

1. Was the apparent recovery due to Cortisone, or was it spontaneous, as sometimes occurs?

2. Will Cortisone prevent or even lessen the damage to the heart that can follow rheumatic fever?

**MASTER ACTION**  
The Mayo doctors raised those questions in their report, but they also said this:

1. Some of the favorable effects noted were achieved faster than with drugs of the salicylate class, including aspirin. The salicylates have hitherto been medicine's best bet in rheumatic fever.

Some other benefits generally not claimed for the salicylates were noted.

Once in a while I find a hand that is in very good and yet so technical that it is almost impossible to get it all in one article. Today's hand is an example. I have tried writing it several times, but have had to give it up, as the article became either too long or too confusing. Today, however, I am not going to try to clarify it. I think it is a great hand and has a fine point in it also.

## Utility Board Ends Milk Probe Here

Decision On Delivery  
Not Expected For Some Time

Board of public utility commissioners completed hearings today on the question of 7-day milk delivery in Edmonton.

## Australia May Try to Secure Dollar Loan

CANBERRA, Australia, Sept. 7.—(CP)—Prime Minister J. B. Chifley told the house of representatives today Australia is examining the possibility of raising a dollar loan.

In a budget speech, the prime minister said that because of its outstanding commitments, the government would not be able to achieve a full 25 per cent cut in dollar imports this year, as proposed at the London conference.

**SOURCES OPEN**  
Although the government in general is averse to increasing long-term dollar commitments, there are various possible sources of dollar borrowing and the matter will be decided in the light of circumstances, Chifley said.

The prime minister said the budget anticipates a record expenditure of \$4,000,000,000 (\$1,750,000,000) compared with actual expenditure of \$3,500,000,000 in 1968-69. Revenues are estimated at \$3,500,000,000.

Chifley said the government would make a further grant of \$100,000,000 to the United Kingdom and additional grants to other Australian states which would bring the total expenditure to \$3,600,000,000. He said a deficit of \$3,000,000,000 would be financed by bonds.

**ACUTE CRISIS**  
After stating that in most countries of western Europe, production, trade and industrial capacity had increased, he spoke of the "acute crisis in the sphere of international trade and payments" and of the Washington talks.

It will be clear from long-term considerations that the issues being discussed at the economic talks in Washington have critical present importance.

## Blood Plasma Frown North

Blood plasma for a patient critically ill in Peace River hospital, was flown shortly after noon today by an emergency crew from BCAT "K" flight command headquarters here.

The flight was ordered after the Canadian Red Cross blood bank here received an urgent appeal from the hospital.

The patient, a Mrs. Backlund, is understood to be suffering a severe internal hemorrhage.

## City Driver Fined \$50

An Edmonton motorist, Alex Tashuk of 915-104 street, was fined \$50 on a charge of dangerous driving today following a week-end accident.

His drivers license was suspended for eight months.

The accident occurred on the Calgary highway last month when his car was driving straight through the rear of another car.

**ON TO OTTAWA**  
Alberta's new Liberal members of parliament are getting set for the opening of parliament on Sept. 15. George Prud'homme, MP-elect for Edmonton West, and A. Fred Macdonald, MP-elect for Edmonton East, have left for Ottawa, J. W. Welbourn, MP-elect for Jasper-Edmonton, and J. M. Debevoise, elected from Athabasca, are also expected to leave for the east this week.

## Bogus Money Spotted Easily by These Rules

OTTAWA, Sept. 7.—(BUP)—The Royal Canadian Mounted police today warned Canadians to keep a sharp eye out for counterfeit \$10 bills and issued instructions on how to tell good from bad.

Assistant Commissioner L. R. Nicholson, director of criminal investigation for the RCMP here, said that phoney \$10 Bank of Canada bills had appeared in several centres between Montreal and Vancouver recently.

**DIFFERENCE OBVIOUS**  
"Good money looks good," he said. "Bad money looks bad. Compare a suspected bill with a genuine one. You can see the difference. To help the public spot the weaknesses in the spurious bills, he issued the following statement:

"Counterfeit Bank of Canada \$10 notes, purported to be a product of the British American Bank Note Company Ltd., have made their appearance in several Canadian centres.

"The background of the note is much lighter than the genuine. The portrait of His Majesty lacks the lifelike qualities of the genuine. The embossed seal appearing on the collar of His Majesty's uniform is practically non-existent on the counterfeit.

**INK WILL SMEAR**  
"The green planchelette (watermark dots) which appear on genuine currency are lacking on the counterfeit. The ink on the counterfeit is a poor type and will smudge easily when rubbed with a wet fingertip.

## Thailand King Now Engaged

LAUSANNE, Switzerland, Sept. 7.—(AP)—The engagement of 21-year-old King Phumiphon Adulyadej of Thailand and Miss Sirikit Kitiyakara, daughter of the Siam ambassador to Britain, was disclosed here yesterday. The king has been studying law at Lausanne University.

## High Seas Mystery

OSLO.—(CP)—When a ship does not have recently there were two empty barrels with neat little holes drilled in the bottom. They should have contained seawater—the Norwegian drink aged by shipping it aboard a gently-rolling vessel. Police are investigating to determine when and where the "leak" occurred.

## Pickpockets Cause Trinidad Riot

PORT OF SPAIN, Trinidad, Sept. 7.—(CP)—One of two buses being used to fight a \$100,000 fire in Port of Spain last night yesterday had to be turned on a crowd to halt a riot caused by pickpockets. Forty persons were left homeless by the blaze.

# Guaranteed\* BETTER BAKING!

**ENRICHED Kitchen Craft FLOUR**

**Works wonders with any recipe!**

Prove it with your own favorite recipe or with this:

**PEACH UPSIDE DOWN CAKE**

2 cups butter or margarine  
1 cup brown sugar  
4 fresh peaches, peeled and halved  
Juice of 1 lemon  
1 1/2 cups boiling water  
1 teaspoon vanilla

1 cup baking powder  
1/2 cup salt  
1 1/2 cups cups sugar  
2 eggs, well beaten  
1/2 cup boiling water  
1 teaspoon vanilla

Melt butter or margarine in a 9" skillet; sprinkle with brown sugar. Dip peach halves in lemon juice and arrange over sugar, cut side down. Sift flour, baking powder, salt and 1 cup of the sugar. In a separate bowl, beat egg yolks till light. Beat, adding remaining 1/2 cup of sugar. Stir in 1/2 cup boiling water. Add vanilla. Fold in dry ingredients. Fold in stiffly beaten egg whites. Pour batter over peaches and bake in moderate oven (350° F.) about 50 minutes. Cool 10 minutes; turn upside down on serving plate.

\*GUARANTEED—BETTER BAKING results with any recipe. If you don't find that Kitchen Craft Flour is the finest flour you ever used, please return it to your grocer. He will gladly refund the full price you paid for it.

## NORTHERN, CENTRAL HARVESTING DELAYED

Harvesting in southern Alberta is proceeding under satisfactory weather conditions, but rain has delayed operations in most central and northern regions, the weekly report of the United Grain Growers Ltd. said today.

Operations are now 95 per cent completed in southeastern Alberta, while to the west they are from 25 to 60 per cent completed, the report said. A better crop yield than was expected is being harvested in the Calgary and central districts. Wheat on summer fallowed land is yielding from 19 to 25 bushels an acre, on stubble, 30 to 35 bushels.

Harvesting is now general in the Red Deer-Rocky Mountain House and Clear districts. If the second growth matures within the next 10 days, larger yields than anticipated should be harvested.

Fifty per cent of the cutting is completed in the Vegreville and St. Paul areas. Frost in the past few days will reduce yields, in some districts.

Soft, wet earth is hampering operation of tractors and binders in the Edmonton district. Hail damage is averaging 20 per cent over the whole area.

**More Schools Needed**  
CIBICAGO.—(UPI)—The Council of State Governments reports that 250,000 new school rooms will be needed in the next 10 years to take care of an additional 3,000,000 school children resulting from the post-war boom in babies.
